

## 企業詳細

企業名	Aurora Energy Research Ltd
企業詳細	<p>■事業内容 / Company Profile From its academic roots, Aurora Energy Research is a thriving, rapidly growing company, currently serving over 600 of the world's most influential energy sector participants, including utilities, investors, and governments. While we constantly strive to reach new markets and diversify our product portfolio, we are already active across the globe in Asia-Pacific, Latin America, Europe, and North America, working with leading organisations to provide comprehensive market intelligence, bespoke analytic and advisory services, and cutting-edge software. We are a diverse team of experts with vast energy, financial, and consulting backgrounds, covering power, hydrogen, carbon, and fossil commodities. With this, we provide data-driven intelligence to fuel strategic decisions in the global energy transformation.</p> <p>■企業PR / Company PR Our large team of power market experts produce critical analytics to almost all major market participants in Europe and Australia, and in the last 5 years we have been commercial/market advisor for more than 200 transactions, totalling over €30bn. We have supported a large number of project financings with our forecasts across all of the markets where we are active. More than 550 companies subscribe to our regular forecasts and analysis. Our in-house energy modelling suite forms the foundations of our expertise, continuously building its sophistication to reflect the ever-changing energy market complexities. Utilising the best methodologies ensures robust mapping of industry and market drivers and interaction, reliably removing many future uncertainties. Our specialist country teams take pride in their detailed understanding of local regulations and market dynamics.</p> <p>■募集職種 / Open Positions Research (Senior) Analyst</p> <p>●仕事内容 / Job Description Key Responsibilities</p> <p>Develop timely and rigorous quantitative analyses to enhance clients' decision making. Work closely with our modelling team, structuring economic problems into quantifiable analyses and deriving insights from the model results. Contribute to our product development, by identifying new opportunities and expanding our capabilities. Engage with clients to thoroughly understand their requirements. Communicate findings to clients.</p> <p>●勤務地 / Work Locations Tokyo</p> <p>●応募条件 / Qualifications What we are looking for</p> <p>Required attributes: First-class or high second-class degree from a top university in a quantitative subject (Mathematics, Economics, Physics, Engineering, Finance), coupled with a keen interest in energy markets and policy developments An ability to collect, analyse and interpret complex quantitative data and information Evidence of strong performance in team-oriented environments An ability to communicate and collaborate with both technical and non-technical parties Fluency in both Japanese (N1 level) and English (C1 level or above).</p>
