Recruiter Company	iHOLON Co.,Ltd
Company Name	Company name is private
Activated / Updated	2024-05-07 / 2024-05-08
Job Type	IT (Hardware/Network) - Network Engineer
Industry	
Location	Asia Japan Tokyo
Job Description	[Specific work content] ◎ Infrastructure construction (SES business/contracting business) We mainly build financial infrastructure (banks, life insurance, etc.) (more than 80%) I am in charge of a wide range of servers/networks/databases/middleware/security/cloud. From proposal to requirement definition, design, construction, and operation, we are consistently doing it. ◎IT consulting business We mainly do IT consulting for small and medium enterprises. We not only organize and analyze issues, but also provide design, construction, and operation support. We offer comprehensive consultations, not only on infrastructure but also on systems. We also assist major companies in formulating budgets and planning when renovating their systems. We do not accept low-skill projects such as kitting, operators, monitoring, and PC support work according to the procedure manual. We do not undertake projects with deep commercial distribution. . [Attractiveness of work] ・We can handle a wide range of projects from upstream processes to actual equipment. ・Because we have many financial customers and have a deep understanding of IT systems, we can acquire more specialized skills. ・Inexperienced people can step up from operation. Skill up support is also super fulfilling! 【client】 More than 80% of the projects are financial projects, including city banks and insurance companies. Direct contracts with city banks and major vendors are the main ones. [System scale] The scale of the entire system is mostly from hundreds to thousands of people. The size of the assigned team will be about ten to twenty people. [Working environment] Operation is stable at all sites (average overtime is less than 15 hours) I value my private time. Over 80% of employees take paid leave every year. I try to make team proposals and work with my seniors and juniors. [Telework] can be. about 70% 【others】 We have a lab in our office, so by building a test environment using a virtualization platform, we can simulate practical skills just like in a production environment. Due to lack of personnel for existing projects and recruitment of leaders for new projects
