Job Description	<p>You will be in charge of the wiring of the transfer equipment, etc. that we are developing, and the software design of the control panel.</p> <ul style="list-style-type: none"> <li>• Design of wiring and control panel for automatic transportation equipment</li> <li>• On-site support during system startup</li> </ul> <p>■ Project Flow You will be mainly in charge of the ● part.</p> <p>○ Sales acquire projects</p> <p>○ The department that decides the specifications defines the requirements (sometimes enter support and talk directly with the client)</p> <p>● Software design</p> <p>● When the system is set up at the client site, we will provide on-site support while conveying the details of the design. If you don't have time to start up, you may be asked to help with the start-up work.</p> <p>■ About assigned department</p> <p>The control department has 3 hardware and 2 software people. Most of them are mid-career hires, so the environment is easy to get used to. Another feature is that there are many employees who enjoy manufacturing.</p> <p>■ About the product</p> <ul style="list-style-type: none"> <li>• The main part is the transport system (there is also a labor-saving machine). We design and manufacture systems "from scratch" rather than "customization" in response to client requests.</li> <li>• Dust-free transport elevators</li> <li>• Clifters are our main products, and we have a fairly high market share in Asia and Japan, boasting about 80% of the market share in Asia. Therefore, there is a good chance that the system you designed from scratch will be used around the world.</li> </ul> <p>■ Major deliveries:</p> <p>Many companies such as major automobile and semiconductor manufacturers have introduced this system.</p> <p>Examples: Kyushu Matsushita Electric, NEC, Sony, Toshiba, Sharp, Kyocera, Fujitsu, Fukuoka Municipal Hospital, etc.</p> <p>increase</p>
Company Info	<p>We at DAIICHI INDUSTRIAL INDUSTRIAL CO., LTD. have acquired an overwhelming share of the world market for our main product [clean vertical transport equipment]. While maintaining the stability of a manufacturer company, in recent years it has formed a strong tag with a certain group to develop a maintenance business for industrial robots. As an industry leader, we anticipate further expansion.</p> <p>This time, we will recruit more engineers for expansion according to market needs. Would you like to experience cutting-edge technology, learn, and grow at our company?</p>
