Job Description	[Job Description] • API implementation of profile creation tool, DB design • Community SNS API implementation, DB design
Company Info	<p>[About the company] Our company was founded in April 2020 and is a start-up company with an average age of 31 years old and 32 members (including outsourcing and interns). Since there are only 15 core members, each member has a lot of discretion.</p> <p>--- There are currently two services released. ---</p> <p>① Profile creation tool "lit.link" Beta version in December 2020, official release in January 2021. It has been well received by many celebrities and influencers for its abundant templates and the ease of editing while viewing it in the LINE browser. It continues to grow.</p> <p>②Community SNS "WeClip" In October 2021, we released a beta version web service for community SNS. It is a service that is expected to be used by 1 million people within a year, and at present, multiple celebrities and influencers are participating. We plan to release an iOS app and business functions within 2022.</p> <p>-----</p> <p>\\ Active recruitment of core members in the founding period // Due to the expansion of our organization, we are looking for members of the community design department to drive the growth of our service! We conduct casual interviews for those who are interested in our business. Even a simple exchange of information is welcome! Please feel free to contact us.</p>
Working Hours	<p>Core Hours: 10:00 - 14:00, flexible working hours. *Standard working hours: 10:00 - 19:00 (including 1 hour break) Participation in online MTG from 10:00 to 11:00 on Mondays is mandatory. Possible to leave the office during work hours. *Mid-service breaks during work hours are also possible. Please feel free to use the gym, beauty salon, pick up your children, etc. *If you meet the prescribed daily working hours, you can work in a free style with no problem to leave the office in the middle of the day.</p>
	<p>[Required skills] • More than 3 years of server-side implementation experience using Kotlin *Or at least 3 years of Spring Boot development experience using Java • Development experience in web-based services • DB, API design (including UML) experience • Experience using Docker • Japanese proficiency: N1 (native level) • Overseas Residents: Possible (only for those who can participate in the online MTG held every Monday from 10:00 to 11:00)</p>
