Job Description	[Job Description] You will be entrusted with the front-end development of the profile site and community SNS using React. You will be mainly in charge of the profile site.
Company Info	[About the company] Our company was founded in April 2020 and is a start-up company with an average age of 31 years old and 32 members (including outsourcing and interns). Since there are only 15 core members, each member has a lot of discretion. --- There are currently two services released. — ① Profile creation tool "lit.link" Beta version in December 2020, official release in January 2021. It has been well received by many celebrities and influencers for its abundant templates and the ease of editing while viewing it in the LINE browser. It continues to grow. ②Community SNS "WeClip" In October 2021, we released a beta version web service for community SNS. It is a service that is expected to be used by 1 million people within a year, and at present, multiple celebrities and influencers are participating. We plan to release an iOS app and business functions within 2022. --- - \\ Active recruitment of core members in the founding period // Due to the expansion of our organization, we are looking for members of the community design department to drive the growth of our service! We conduct casual interviews for those who are interested in our business. Even a simple exchange of information is welcome! Please feel free to contact us.
