Job Type	Manufacturing (Automobile/Plant Engineering/Precision Equipment) - Architect/CAD Architect/CAD Operator/Plant Architect
Industry	
Location	Asia Japan Tokyo Asia Japan Tochigi Asia Japan Ibaraki
Job Description	<p>[Job summary] As a 3D CAD engineer, you will be responsible for development, design, modeling, and technical consulting work.</p> <p>[Job details] As a 3D CAD engineer, you will be involved in design and development work, technical consulting work, and upstream processes of development at our own contract sites or development sites at customer sites (major manufacturers of automobiles, auto parts, home appliances, etc.). In order to significantly shorten the product development period, we support the development process, from the design area to the production technology area, with a focus on 3D design. We may also provide technical consulting, such as proposing 3D CAD that is optimal for the customer's development target.</p> <p>[Work style] Basically, you will be stationed as a team. There are many companies with whom we have deep business relationships, and five of our clients have over 50 employees permanently stationed there. Some of our clients employ 180 employees.</p> <p>■Main customer industries: Automobiles (50%), auto parts (35%), electrical equipment (1%), motorcycles (6%), other machinery, medical equipment, etc. (8%)</p>
Company Info	No smoking indoors
Working Hours	9:00-18:00
Qualifications	<p>[Required] ■More than 2 years of mechanical design experience ■Japanese N2 level or higher (no qualification required)</p> <p>☆☆☆Recommended points☆☆☆ We are an industry-specific outsourcer!! Since we specialize in the automobile industry, Those looking for automotive-related technical positions are welcome!!</p> <p>The project is carried out while thinking about the engineers' career plans together. I'll decide for myself!!</p>
