

## Job Detail

Manager Level

Position Title	Recruiting Lab General Manager, Artificial Genes, Tokyo, annual income: 9 million yen
Recruiter Company	CREATE INTERNATIONAL CORPORATION/株式会社クリエイト・インターナショナル
Company Name	Company name is private
Activated / Updated	2024-02-28 / 2024-02-28
Job Type	Medical/Pharmaceutical/Bio/Fabric/Food - Research Medical/Pharmaceutical/Bio/Fabric/Food - Production R & D Medical/Pharmaceutical/Bio/Fabric/Food - QA/QC
Industry	Chemicals/Petro-Chemicals
Location	Asia Japan Tokyo
Job Description	<p>① Contracted services: Lab management operations</p> <p>② Since the artificial gene synthesis department is the only production department, we will consider managing only the Sanger sequencing and NGS departments depending on your experience.</p> <p>③ This position allows for cross-sectional management of the laboratory and has deep connections with the business side, so growth in both aspects can be expected, and we believe that this is a position that will allow you to aim for BUMA in the future.</p>
Company Info	<p>Our parent company, Eurofins, is a global bioanalysis company with 400 facilities in 44 countries and more than 38,000 employees.</p> <p>Our company, which belongs to the genomics business division of the network, has been providing services to customers in Japan for over 20 years as a market leader in contract services for oligo DNA synthesis, DNA sequence analysis, artificial gene synthesis, peptide synthesis, and antibody production. I have done so.</p>
