Job Description	<p>[Job summary] *These working conditions are the conditions for working in Japan, and when you are stationed, we will take into consideration the legal aspects of the place you are stationed and the work you will be responsible for, and will work out reasonable conditions.</p> <p>You will work at the company's "local subsidiary" (China branch), which is an overseas base, and will perform contract sales for product proposals and manufacturing, or perform production / manufacturing management, quality control / assurance, etc. according to your experience. Scheduled to be stationed in Shanghai, Wuhan, or Shenzhen</p> <p>[Details of work details] In this position, you will be responsible for the entire process from planning to mass production of rubber, plastic, and metal products. Our main job is to make product proposals to the technology and purchasing departments of Japanese and local manufacturers, and in addition to existing customers, we also make proposals to new markets and new customers. In addition, we are required to explore new application fields without being restricted by existing products. Product features include fish products that have higher grilling capabilities than other companies' products, and noodle products that have simple cooking procedures that save time. These features are the strengths of the company's products.</p>
Company Info	<p>[Business details] Our company was founded in 1952 as an industrial rubber products store, and since then we have shifted our focus to mechanical parts for the electronics field. Our company, which started as a trading company, has steadily developed since 1995 by adding the functions of a manufacturer with the cooperation of our special material suppliers. I would like to express my deepest gratitude for your support. Currently, all employees of our group have a global perspective, and with the motto of "providing products that satisfy our customers," we are working in Japan (Saitama, Osaka, Kobe, Himeji) and China (Shanghai, Shenzhen, Suzhou, Tianjin, Wuhan). With 11 production plants in , Vietnam, and the Philippines, and supporting sales offices, we are developing a global supply chain to meet our customers' functional parts procurement needs.</p>
