Industry	System Integrator
Location	Asia Japan Tokyo Asia Japan Kanagawa
Job Description	<p><Engineer First> Proactive remote support, free choice of PC to use at home (company expense) Examination fees for various exams (regardless of pass/fail), borne by the company, etc. We are focusing on creating an environment that makes it easy for engineers to work. The company's strength is solving customer needs using the latest technology. We are an ambitious group of engineers who can compete on a technical level with major system integrators.</p> <p>■Those who can provide management support for aggressive management that creates new business rather than improving business operations. We design the best effort system for our customers without the limitations of manufacturers or technology. can. It is especially suitable for people who are particular about making quality products. We carefully propose technical logic with high reproducibility without being biased toward strategy, so we do not rely on strategy-based ideas. So that I don't have to say anything, It is important to have an attitude of studying technology thoroughly.</p> <p>■You will perform the following duties through interviews with customers.</p> <ul style="list-style-type: none"> • Corporate Business IT Management (IT Strategy) • System planning • Vendor control • Technical support for the development team, etc. <p>■You can make full use of your engineering background. (There may be a competition with a major consulting firm...)</p> <ul style="list-style-type: none"> • Boston Consulting Group • PwC • Accenture <p>We will be in charge of your desired business area without being limited to traditional consulting business areas. This is my stance. (There are also consultants who are involved in more technical and development-oriented aspects.)</p>
Company Info	<p>Prime deals 70% (sales ratio) A mid-sized vendor whose strength lies in establishing technological superiority over major system integrators. We are focusing on the development of our employees, and value challenges, such as paying the full cost of taking exams for various qualifications (including vendor qualifications) regardless of whether you pass or fail. Another popular feature is that the company provides home PCs for remote work, taking into consideration the wishes of employees to the fullest. We are also proactive in hiring foreign employees, and more than 20% of our employees are foreign nationals. 70% of employees are actively working from home, working fully remotely or in a hybrid manner.</p> <p>No smoking inside the company</p>
