Job Description	<p>As a bridge engineer, I would like you to act as a bridge between the PM/upstream team and the offshore subsidiary development team or development vendor. This will be the key position to adjust scope, control schedules, and costs so that development can proceed more smoothly by understanding requirements definitions and design specifications.</p> <p>[Related processes] Requirements definition, basic design, detailed design, testing, application application/release, maintenance/growth, etc.</p> <p>《Example of work to be entrusted》</p> <ul style="list-style-type: none"> • General communication between the head office upstream team and offshore development team <p>It is assumed that you will manage the development team on the offshore side and proceed with the project. We will manage progress, quality, risk, etc. and work to make the project a success.</p> <ul style="list-style-type: none"> • Specification communication and adjustment • Management of offshore team development schedule and estimate management • Identification and reporting of risks, consideration of countermeasures • Preparation of some basic design documents and detailed design documents • Team building with clients • Creating a team culture
Company Info	<p>[Partner product development]</p> <p>This is a business that plans, develops, and operates apps that help customers achieve business success. While supporting the development of applications requested by major companies such as bravesoft's representative service "bokete", "TVer", and "31 Ice Cream App", we continue to support the development of applications requested by major companies. This is a rewarding job where we work together with our customers to think about things like "Will they download it?" and aim for success together with our customers.</p> <p>[In-house product development]</p> <p>This is a business that uses the power of technology to enliven events around the world. I work as an engineer who develops our own services "eventos" and "Live! Survey," and as an event DX consultant who works with event organizers to create events. My work provides a sense of accomplishment as we aim to make the events our customers plan enjoyable and succeed together. Masu.</p> <p><Status of passive smoking prevention measures> Indoor smoking/smoking room setup</p>
