Location	Asia Japan Shizuoka
Job Description	<p>[Job summary] We will be in charge of body design for motorcycles (sport type).</p> <p>[Job details] • Design and drafting of vehicle body parts • Management of development projects *Responsible duties will be determined according to ability.</p> <p>[Recruitment background] In our core business of motorcycle products, we need to develop attractive models that meet the needs of a more diverse range of customers. In order to quickly deliver increasingly sophisticated products to our customers, we are looking for a body design engineer who can work immediately.</p> <p>[Rewarding/Attractive] Among motorcycles, it is especially a sports type, which is a relatively hobbyist product, and the scale of development is more compact than that of a four-wheeled motorcycle, so it is easy to reflect one's thoughts and ideas for the customer in the product. In addition, we have a free, open-minded and open-minded culture where we respect each other, allowing us to hone new techniques and skills while deepening discussions with colleagues who share a common goal, allowing us to continue to experience growth as engineers. It's the environment.</p>
