Company Info	The company is an organization that is part of a technical human resources services group listed on the Prime Market. We boast a high sales share in the engineering outsourcing industry. Our clients include many well-known companies and institutions, including major vendors, major manufacturers, telecommunications companies, medical institutions, and finance. Our employees find their work rewarding and we have achieved five consecutive years of increased sales and profits in recent years. In addition, current veteran engineers are employed at each location as group leaders and career design advisors. You will be able to work with peace of mind as you will receive advice on the optimal education and work environment that will help you develop your career. Another feature is that we have a wide range of customer projects. In addition to full-time projects, we are also receiving more requests for team participation in bulk contracts and commissioned development, and each project is carried out with maximum consideration to the employees' ``what they want to do" and ``skills they want to develop." Masu. The company has been listed on the prime market, and its business status has been disclosed as appropriate, giving it a solid foundation. Training is also provided by all group companies. This is a company where you can expect long-term employment and steady growth. It will match those who want to improve their skills widely from upstream to downstream, those who simply love technology, and those who want to grow in a stable environment.
