Position Title	[Nakahara-ku, Kawasaki City] English/Automotive test engineer (system evaluation of foreign cars, technical support for applications, etc.) [Less overtime]
Recruiter Company	Global Leaf Co., Ltd.
Company Name	Company name is private
Activated / Updated	2024-04-03 / 2024-04-18
Job Type	Manufacturing (Automobile/Plant Engineering/Precision Equipment) - Valuation/Testing Manufacturing (Automobile/Plant Engineering/Precision Equipment) - Quality Control Manufacturing (Automobile/Plant Engineering/Precision Equipment) - Other
Industry	Automotive and Parts Manufacturing
Location	Asia Japan Kanagawa
Job Description	<p>[Business overview] Our company provides manufacturing support to automobile manufacturers through structural tests and maturity tests. In this position, you will be asked to explain to foreign automobile manufacturers the costs and schedule of testing items for vehicles that are scheduled to be shipped in the future, as well as create and submit a report summarizing the results of the testing items from proposals. In the future, you may also be entrusted with project progress and testing duties.</p> <p>[Specific job details] ■Inspection of the infotainment system of foreign manufacturer vehicles ■Car navigation software and application inspection and error confirmation ■Report creation/reporting ■One-day long-distance operation test (low frequency) ■Meeting with business partners ■Quality inspection of test equipment and vehicles Let me start with something easy. We welcome those who like driving and those who are used to it. Depending on your experience and skills, you will be responsible for creating materials, reporting and making proposals to customers, etc. *This is a job where you can make use of your English skills as the client is a foreign company.</p> <p>【Workflow】 ▼We will present the process and costs from testing items to reports to our customers. ▼We will summarize the results of the testing and submit it to the customer as a report.</p> <p>[Charm of the job] You can improve your English skills while working. Since you will be interacting with foreign companies, language skills (English) are required.</p> <p>[Team organizational structure] Our members have extensive experience studying abroad in the United States and Europe. We have created an environment where we can stimulate each other and grow while leveraging each individual's global perspective. It is also recommended for those who want to improve their English skills while working. There are many seniors who started with no experience but are now active at the forefront. This is a team that is appealing because of its openness, which makes it easy to ask questions about things you don't understand.</p>
Company Info	<p>[Company characteristics] Our company was established in South Korea in 2005, and opened a Japanese subsidiary seven years ago due to the ever-increasing number of requests. We have partnered with many well-known foreign car brands and have expanded our market share while building up a track record through testing.</p> <p>【Business summary】 ■Corporate vehicle management</p>

	<ul style="list-style-type: none"> ■Car event planning ■Infotainment test ■Coin consulting & training
