Company Info	<p>&lt;Attractive point 1: Ability to play an active role in upstream processes &gt;</p> <p>The ratio of upstream processes is 73.9%, the highest ratio within the TechnoPro Group.</p> <p>Design-sha has many projects that combine data and IoT, and tends to be involved in the latest technologies.</p> <p>The reason for the large number of upstream processes is that we have gained the trust of many diverse customers. As a result, the project renewal rate remains high at an average of 92.7%.</p> <p>As a result, we participate in projects for the long term and are an indispensable partner for our customers.</p> <p>&lt;Attractive point 2: Abundant career paths &gt;</p> <p>With a vision of developing engineers who can play an active role at the cutting edge for the next 10 years, we have set up "Technology Strategy Map Training" based on Design-sha's compass, the strategy map, to enable engineers to play an active role and demonstrate their abilities in the cutting edge technology field. We have prepared an environment where it is easy to acquire knowledge and skills in new technologies. A total of 5 billion yen is planned to be invested over the next 5 years.</p> <p>We have an environment where engineers can achieve their future aspirations, and there are many cases of them changing careers to become consultants, data scientists, training instructors, and engineer career advancement managers.</p> <p>&lt;Attractive point 3: Flexible working style with a stable foundation&gt;</p> <p>Workstyles that match individual life stages, such as childbirth and childcare, are available.</p> <p>Even those who need to return to their hometowns or to their hometowns for caregiving can take advantage of Design's nationwide service network.</p> <p>As a result, you can improve your skills while valuing work-life balance and increase your market value as an engineer.</p> <p>In the future, the company will become an indispensable partner for its customers and support Japanese companies in various fields.</p> <p>The company also wants its coworkers to grow together so that they can acquire skills and knowledge that will be useful in any era.</p>
Salary	JPY - Japanese Yen JPY 4500K - JPY 10000K
